

Tapestry Journal 2 - EYFS

The new app is a separate one to the original one, which means if you want to use it, you are not able to upgrade your current app to it, you will need to download it from the App store.

You can find this by searching for Tapestry on the App store; the new app will be labelled '**Tapestry Journal 2**' so the distinction is clear.

As they are separate apps, you will still be able to use the original version until at least the summer, though we would recommend downloading the new one so you can access all of the great new additions!
