

# Theatres

## Art and DT

The children will make dioramas based on traditional tales and present these to the rest of class. This will link to the work covered on playscripts in Literacy.

## RE

This term, Year 2 will work to gain an understanding of special books. They will think about those books that they think are special and move on to thinking about the books that are important to the many different religions. The children will visit a local synagogue.

## PE

The children will learn some tennis skills and play lots of team games. Hopefully, we will enjoy lots of PE sessions outside due to better weather. Please can you ensure you child has appropriate footwear in school every day.

## ICT

The Internet will be used to research theatres and how they have changed since the first theatres in Ancient Greece. We will look at theatres around the world and compare and contrast them.

## Topic

We will be learning all about theatres, what happens in a theatre and the roles of different people within the theatre.

We are hoping to visit two local theatres to compare them and find out some more information.

We will look at where theatres began and how they have evolved over the years.

We will also look at set design and make our own dioramas.
