

History

The children will use a range of resources, including ICT, to find out about Ancient Egypt. They will learn about different scripts and write coded messages using hieroglyphics. They will learn about the process of mummification and will research information about pharaohs, Gods and Goddesses. They will have the opportunity to learn about everyday life including; rich and poor; trades; clothes and jewellery; entertainment etc. Children will find out about temples and pyramids and explore where they were built, their size and what they were used for. They will learn about the civilisation of Ancient Egypt over three thousand years, and the changes that were made in terms of beliefs and everyday life.

RE

Children will reflect on the groups they belong to within the local community. They will use a range of sources to learn about different religions and how communities live and worship.

Art

The children will design and make an Egyptian amulet from clay. They will also use a range of materials and techniques to make a 3D model of Tutankhamun. They will have the opportunity to make papyrus paper and decorate it, using hieroglyphics and other Egyptian drawings and symbols.

PHSCE

The children will learn about the importance of rules and responsibility, taking on Y4 roles around the school. They will compare rules and laws that affect them and keep them safe within the community. They will carry out role play in small groups to explore decision making processes.

Ancient Egypt

German

The children will continue to learn conversational German through a range of games and practical activities.

Science

Children will learn about how to use electricity safely and the dangers associated with misuse. They will make their own electric circuits with a break, and learn how to make bulbs brighter and dimmer. They will learn and interpret electricity symbols, and use these to draw their own circuit diagrams. Children will have the opportunity to use a range of ICT programs to carry out experiments and learn more about circuits and conductors. They will also explore new concepts during a trip to the Centre for Life.

Design Technology

The children will design, make and evaluate a model with an electrical circuit, including a switch.

ICT

The children will use ICT to support learning in other curriculum subjects. They will undertake research using selected websites and software. They will use a range of presentation programs to present their work, including Word and Publisher. They will be introduced to VTLE and will learn how to communicate information and use the Internet safely. The children will also visit the CLC and learn how to use animation software.

Music

The children will have weekly recorder lessons and music lessons led by Mrs Brown
