

30.6.20

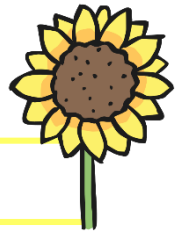

How well do I understand the lifecycle of a sunflower?

A good scientist uses scientific language...

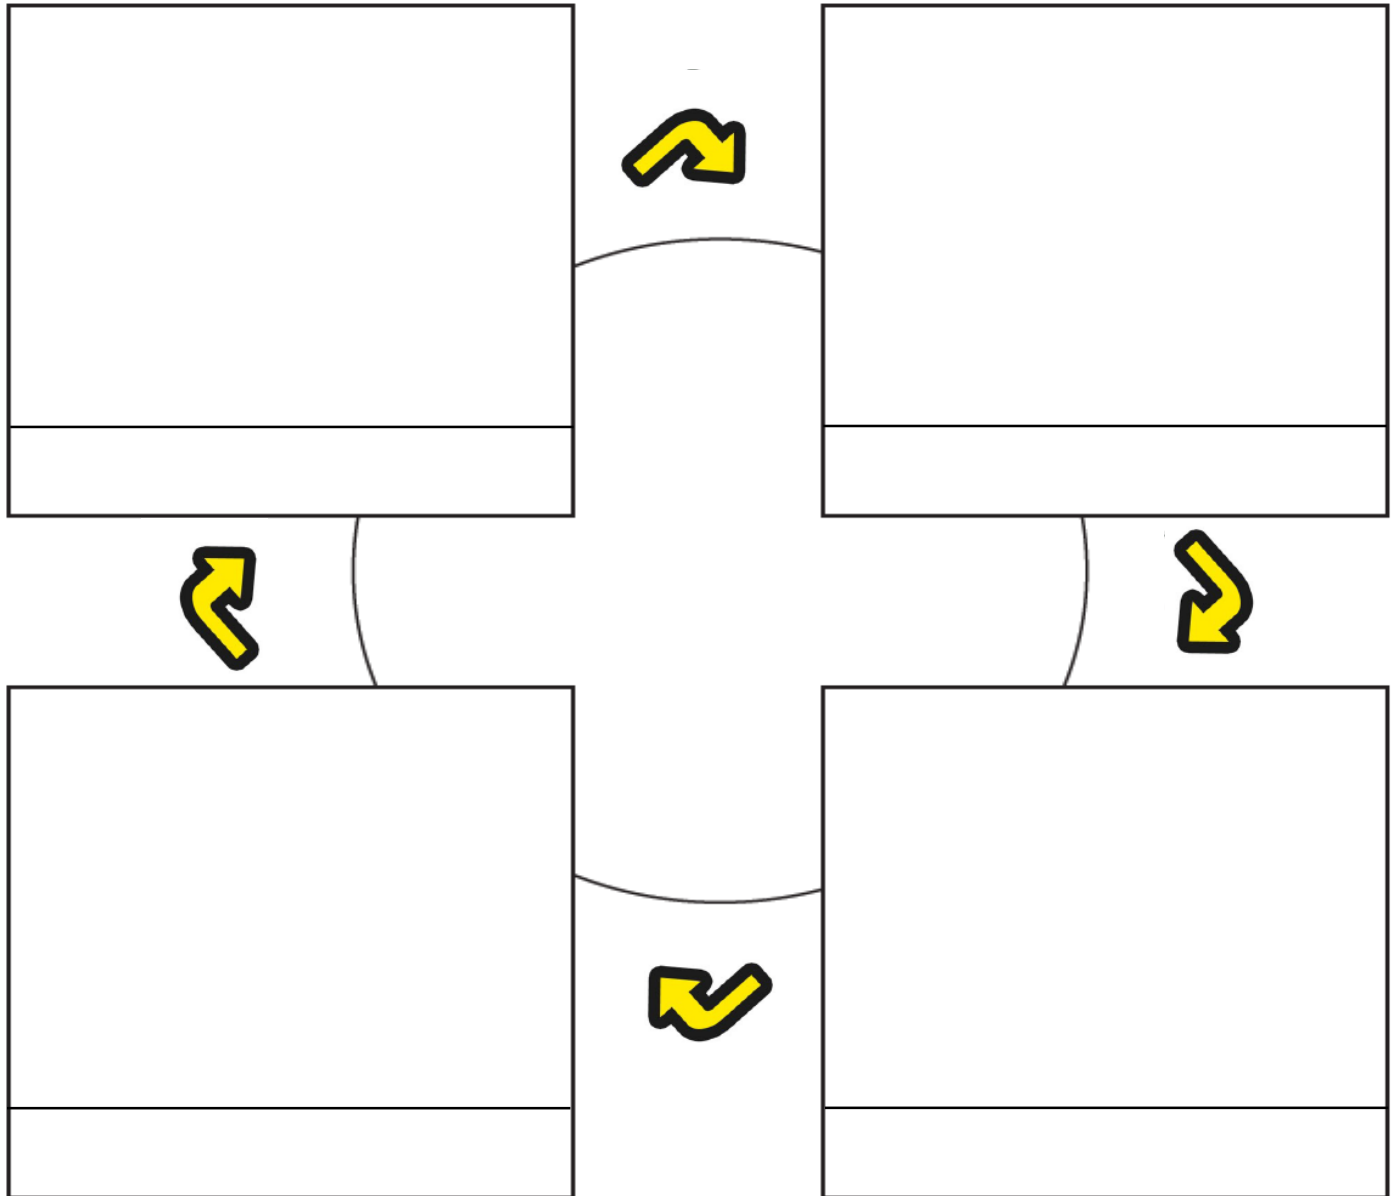

seed dispersion

germination

seedling

flowering

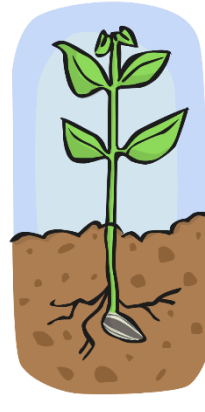

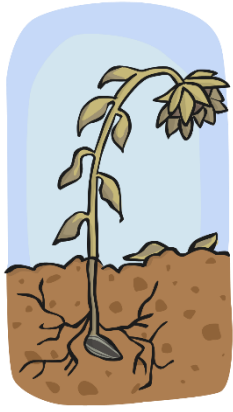

**Challenge:** Now that you have completed your lifecycle, can you tell me what happens during the **seed dispersion** stage?

---

---

---

---

Cut and stick the picture into the correct places to create a lifecycle. Match the scientific vocabulary to the correct stage by writing it in the smaller section of the box.
