December 2020

Dear Parents and carers,

We are pleased to tell you about a very exciting campaign called the Big Battery Hunt! Over the last two years, children in all year groups at Archibald have been challenged to find and collect as many batteries as possible so that they can be recycled. Your child can be as creative as they like by going to work spaces, places of worship, local businesses and the wider community to enlist everyone to help make sure that no battery ends up in landfill.

All pupils in Reception will be supplied with a cardboard collection box. This can be used to bring batteries to school and these will be added to the main container in our school hall. Children must then take their collection box back home and use it to bring in more batteries in the future.

In addition, we also collect used stationery too so feel free to bring in broken pens etc.

Everything that is collected will be recycled and our pupils will really be doing something amazing by helping to save the planet!

Thank you for your continued support and happy hunting!

Mr S. Morrow

Safety Information

- Discarded batteries present a very small risk of fire and source of ignition. The risk can be greatly reduced by taking the following simple precautions:
 - Keep batteries dry and away from sources of heat
 - Do not put damaged batteries in the collection box
 - Store the box/batteries away from combustible or flammable materials
 - Do not put any items other than batteries in the collection box
- We are only collecting AAA, AA, C and D batteries for this activity, but please see guidance on alternative batteries:
 - Button cells present a choking /ingestion hazard – keep away from young children
 - Insulate (tape up) terminals on batteries that can easily short circuit (e.g. 9V batteries)
 - For leaking batteries place in a small plastic bag and then put in the collection box

Having fun, achieving excellence.

Successful learners. Confident individuals. Responsible citizens.
